

ALLIANZ GROUP

Courage to move forward

People Fact Book 2023

Foreword

Dear reader,

At Allianz, we believe that our people are our strongest asset. They make a difference every single day by supporting our customers and ensuring that we deliver on our purpose of “We Secure Your Future”. Our Group People and Culture strategy focuses on living a culture where we care for tomorrow and do the right things for our people.

I am proud to present our People Fact Book 2023, a comprehensive overview of what we are doing for our people and the talent we want to attract, for our business and for society.

In 2023, our efforts to further grow our culture of trust, wellbeing and inclusion, were also recognized by Great Place to Work® (GPTW) certifications in 43 units in 26 countries, a huge increase from 15 in 2022. The Trust Index of 82% shows that our efforts to create a culture of trust and well-being for our people are paying off – a culture where our people can come to work as who they are and thrive every day.

In addition, our record results in our Allianz Engagement Survey (AES), which outperform global market trends, confirm the high level of trust and satisfaction our employees have in working for our company. This is also reflected in the fact that more and more employees are becoming owners of our company. I am proud to say that after our first Employee Investor Day, 70% of Allianz employees now own Allianz shares through our Employee Share Purchase Plan (ESPP).

Our AES has also clearly shown that flexibility is and will continue to be important to us and our people. As well as offering a range of flexible working options, including hybrid working, mobile working and the opportunity to work 25 days a year from abroad, I’m excited that in 2023 we launched “Mini Mobility”. This is a new program to encourage employee development and international collaboration across our 70 countries, where people can spend between 30 and 90 days at another Allianz company outside their home country. While we recognize the value of flexible working, we believe that the office remains an important place for collaboration, relationship building, innovation and experiencing our corporate culture. We truly empower and trust our people and teams.

This is reflected in our ongoing focus on DE&I. Diverse teams perform better and create greater business value. We have not only grown our employee networks 66 to 81. Our newly created People Moments Unfiltered show our intensified efforts to ensure that everyone at Allianz feels part of a diverse and inclusive company. This has also been recognized again by the Beyond Gender Agenda (#1 in Germany), and #1 in Insurance in the global Refinitiv Diversity & Inclusion Index as well as the EDGE certification for our progress and efforts towards gender equality.

Finally, I would like to highlight our culture of lifelong learning and development. I am very pleased that in 2023, we have further accelerated the upskilling of data and digital skills. With global initiatives such as Fit4IT, #lead

together with GenAI, we have already embraced the speed of emerging technologies and helped our people to be well equipped with the skills of the future.

In 2024, learning and continuous upskilling will remain our key focus area. In particular, the need for learning and development, especially in skills related to both Emotional Quotient (EQ), such as curiosity, resilience, collaborative mindset, and adaptability and Intelligent Quotient (IQ), such as digital and data, problem solving, business acumen, sustainability and leadership.

I take great pride in our achievements and the commitment of our people in delivering our business success. We continuously challenge ourselves to prioritize what matters most to our people, to the talents we want to attract, to our business and to society – because only healthy, happy and engaged people can deliver the best results.

Bettina Dietsche

Group People and Culture strategy highlights

“We secure your future” is our corporate purpose and living up to it starts with our 157,883¹ employees. Our Group People and Culture strategy is based on fulfilling this purpose and on our employer value proposition “We care for tomorrow,” staying true to our brand promise of expressing confidence in tomorrow, and putting our customers at the center of what we do. This is what drives our decisions and actions.

Our ambition is to be the top employer in the financial services industry globally. We work to attract top talent and support our employees on their growth and development journey, delivering a strong business impact and making a positive social contribution wherever we operate.

To reach this ambition, we have based our People and Culture strategy on three pillars:

Our Group People and Culture strategy is structured around 3 Pillars:

- Employees and Candidates
- Business
- Brand and Society

1) Contracted headcount related to the insurance, asset management, and banking business is 154,862.

2) Strategic Workforce Planning is covered in NFS 2023.

Strategy house

Strategy house chapters

Allianz is fundamentally a people company and our employees are our strongest asset. They are the ones that make the difference every day for our customers, partners, and society. That is why it is crucial that we create an environment in which our 157,883¹ employees can thrive at work and reach their full potential, and our People Fact Book 2023 brings to life how we achieve this. Whether it is through our efforts with employee engagement, learning and development, rewards, performance, health and wellbeing, talent acquisition or diversity, equity, and inclusion, we work tirelessly to ensure our people are engaged and motivated. We are also proud that our approach is recognized by the awards and certifications we achieved in the last year.

Renate Wagner

Member of the Allianz SE Board of Management and Chairperson of the Global Inclusion Council

Our Strategy House Pillars in details:

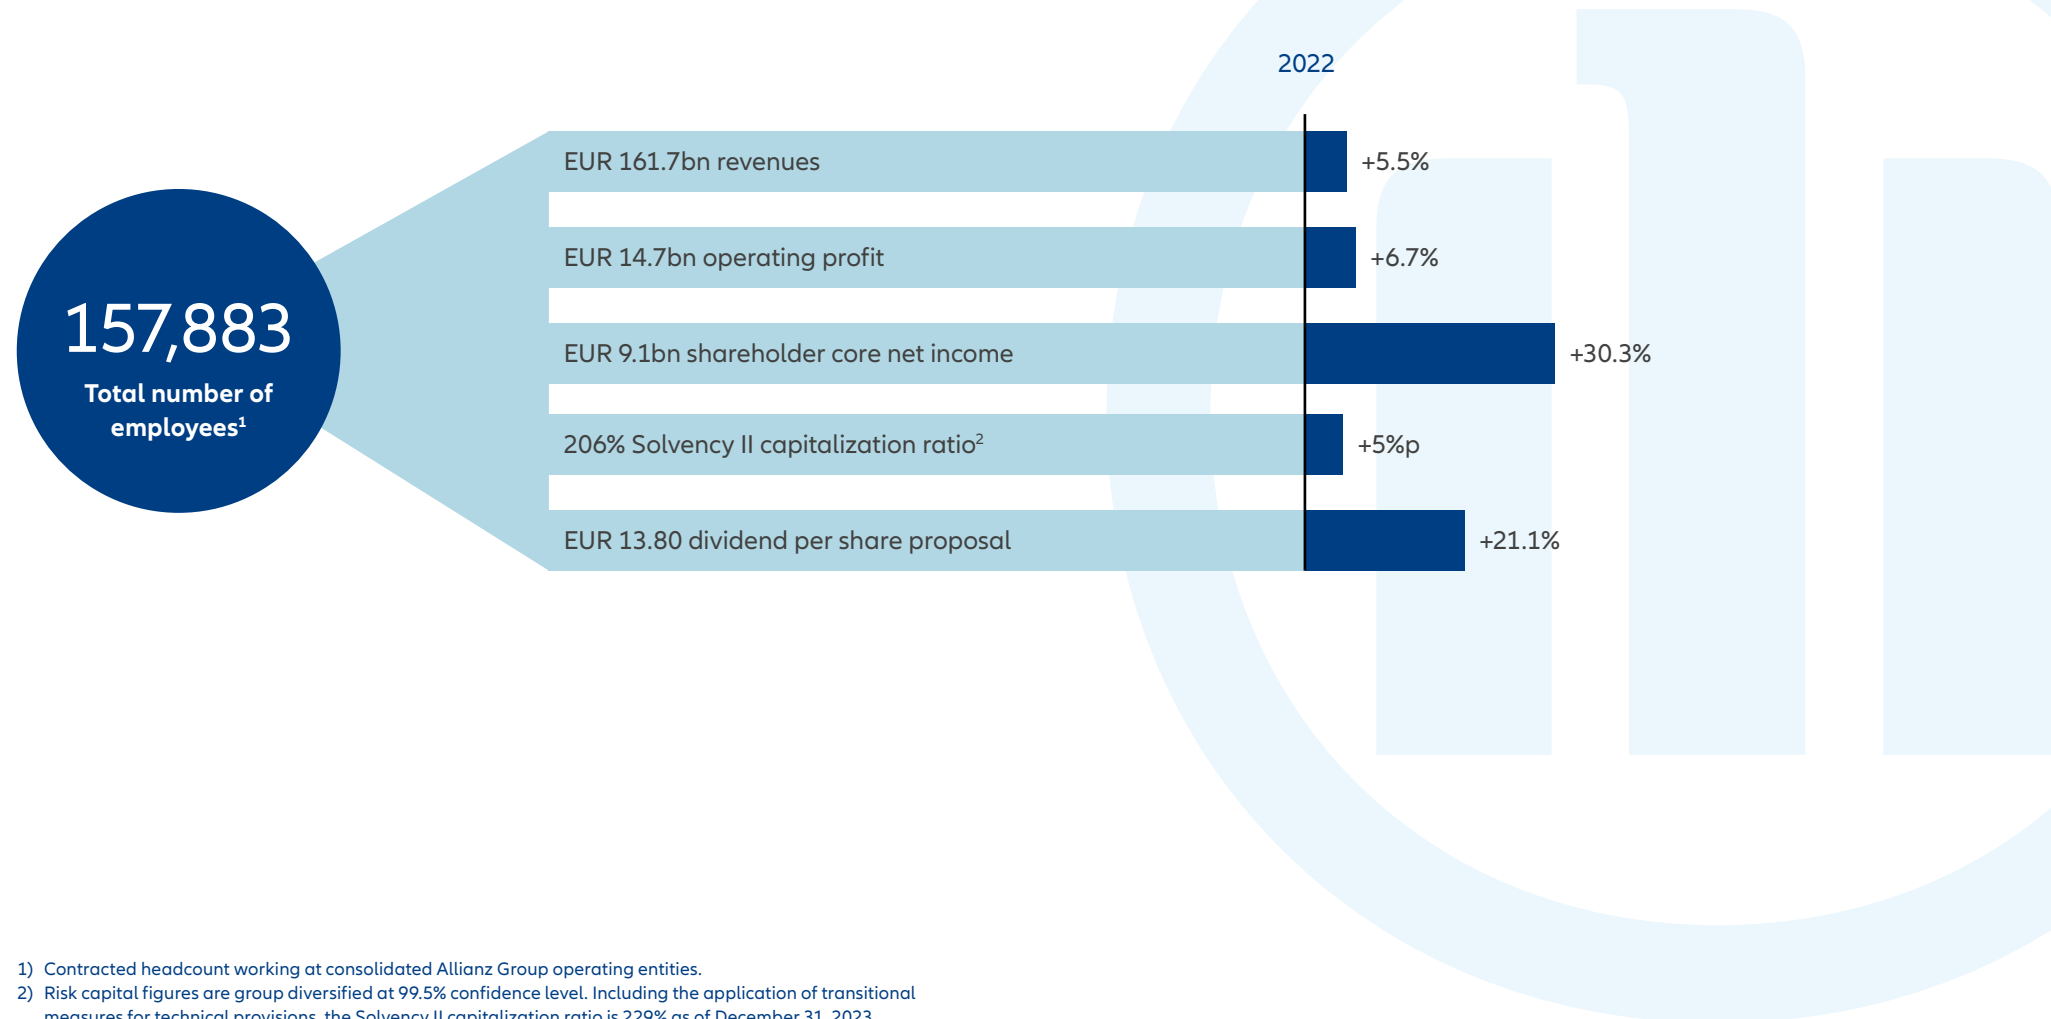

1. The Employees and Candidates pillar includes all our strategic priorities that enable us to engage, retain, and develop our employees and to attract top talents. Strong employee engagement is important to us, and we foster a culture and working environment where people and performance matter. We ensure lifelong learning and are committed to growing and developing our people to be prepared for the future. Fair remuneration as well as health and safety for our employees are of utmost importance.

2. The Business pillar includes outstanding service to our business, strategic workforce planning and Diversity, Equity and Inclusion (DEI). DEI fuels our business to deliver on Allianz's strategic goals. We are committed to strengthening diversity, equity, and inclusion in the workplace by providing equal opportunities for all, fostering gender balance, and embracing a diverse workforce not only in terms of gender representation but also in terms of generations, disability, nationalities, ethnicities, religious beliefs, and LGBTQ+ identity. A diverse workforce enables us to better understand and fulfill the needs of our equally diverse customer base.

3. The Brand and Society pillar displays the contribution Allianz makes to business and society. Our contribution is recognised by external certifications like Great Place to Work® (GPTW) and EDGE as well as global rankings like Refinitiv. Furthermore, we engage with the World Economic Forum, for instance, as a member of the Good Work Alliance for a more resilient, equitable, inclusive, and humane future of work. Allianz contributes to generating sustainable and inclusive growth and helps to deliver on the U.N. Sustainable Development Goal 8, "Decent work and Economic growth".

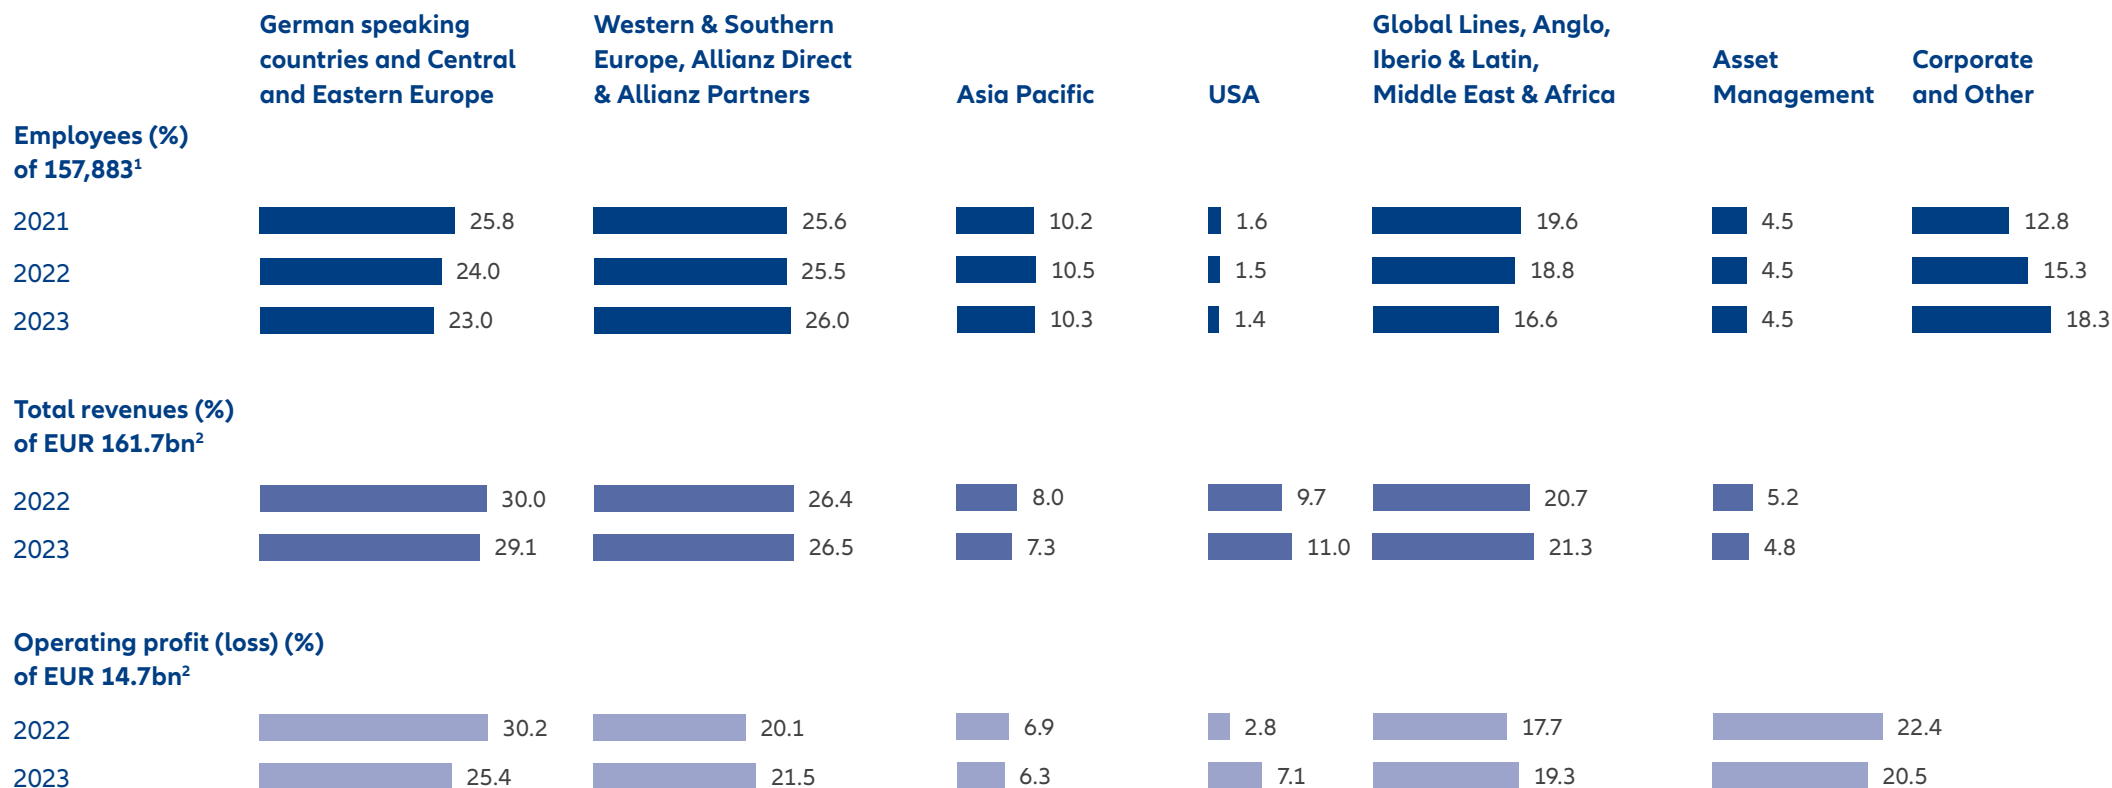

The following chapters describe our workforce in facts and figures along our Group People and Culture Strategy. Each chapter highlights our key achievements in 2023 and provides an outlook for 2024. Additionally, we have chosen one specific topic to focus on, which we are particularly proud of. All numbers are based on 31 December 2023 unless stated otherwise. The disclosures denoted with "✓" in the People Fact Book have been prepared in accordance with the principles stated in the Sustainability Reporting Standards of the Global Reporting Initiative ("GRI-Criteria").

Allianz achieves record operating profit and shareholders' core net income

2) Calculation method changed in 2023: Turnover rate in Allianz Group excl. Allianz Partners and employees whose temporary contract ends during the reporting period excl. Allianz Partners due to call center operations.

In focus

The Allianz Engagement Survey enables us to collect evidence on our culture. Listening to employees is paramount to understanding their circle of concerns and empowering them. This is particularly important in periods of high volatility, uncertainty, and angst, from political upheavals to climate hazards.

Reconciling what drives people to the office every morning with what clients and shareholders want from us is not easy. Yet, I deeply believe there is room for teams to find their “ikigai” (reason for being in Japanese) when there is trust, openness, and a sense of service.

Ludovic Subran
Chief economist of Allianz

Key facts

Listening and engaging with our employees are key to Allianz. Since 2010 we ask our employee to participate in the global listening surveys. Our employee listening framework consists of the annual Allianz Engagement Survey (AES) and biannual Pulse surveys.

- In 2023, 84% of our Allianz people or 136,260 employees from 70 operating entities participated in the AES which is 1.5k more respondents than in 2022 showing that employees appreciate the opportunity to provide feedback.
- We achieved record results in all relevant indices against the backdrop of scores of external global benchmarks. Our three key indicators recorded with the AES survey are the Inclusive Meritocracy Index (IMIX), the Work Well Index+ (WWI+), and Employee Engagement Index (EEI).

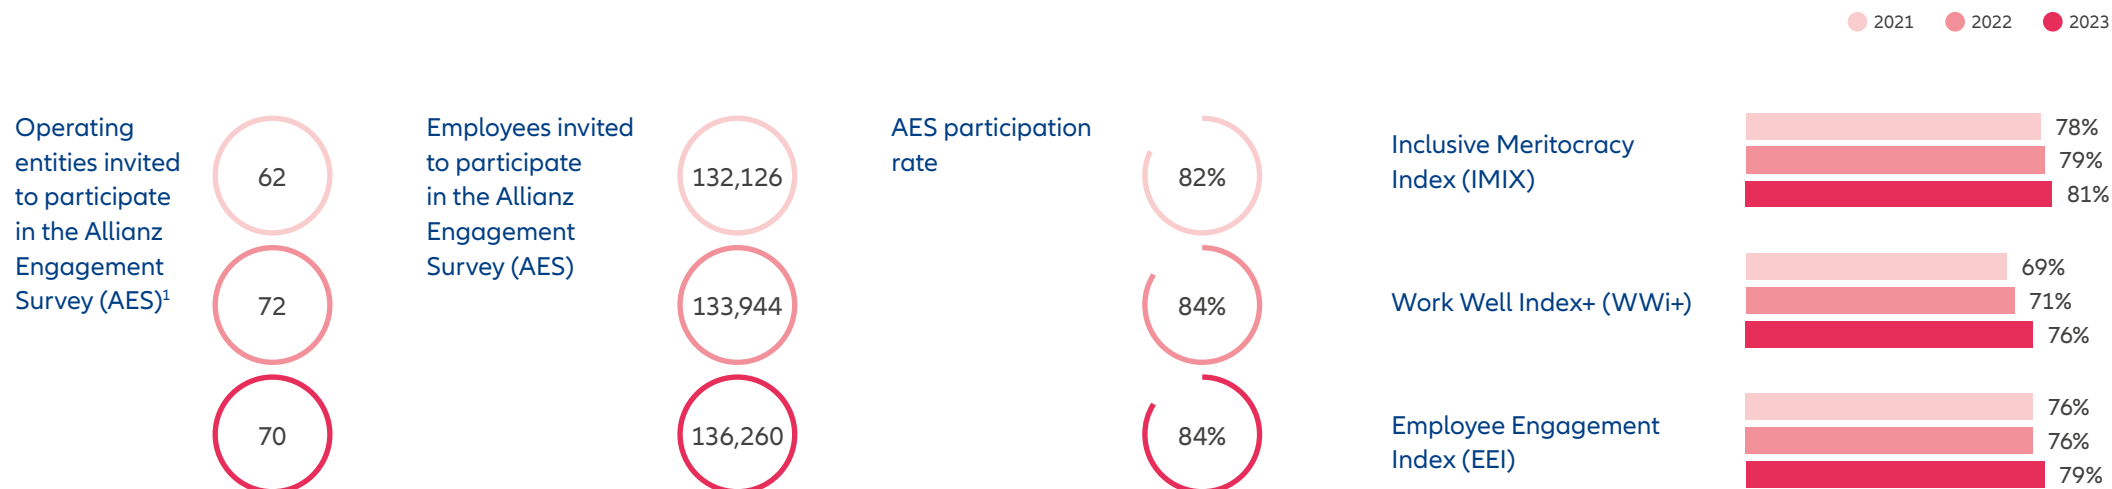

- The IMIX measures our progress in building a culture where both people and performance matter, enabling employees to unlock their full potential. In 2023, the IMIX increased by 2pp to 81% (2022: 79%) and reached best in class level.
- The WWI+ measures employee well-being. The WWI+ score rose by 5pp to 76% (2022: 71%).
- The EEI measures the strength of the mental and emotional connection employees feel toward the organization that they work for, their team, and their work. The EEI score rose by 3pp to 79% (2022: 76%).

Outlook

Based on what our employees told us, three focus themes have been identified for 2024 to strengthen employee engagement even further:

- **Learning & Development**, where we put focus on implementation of a new global skill framework (for further information refer to section “Learning & Development”).
- **Recognition beyond pay**, where we focus on evolving our global benefits strategy as well as creating opportunities for our employees to become shareholders (for further information refer to section “Reward, Performance and Mobility”).
- **Workload and workplace**, where we focus on setting clear priorities as well as improving digital workplace experience in a hybrid setup.

In 2023, we accomplished exceptional results across all indices

1) Allianz Germany OEs counted separately.

In focus

Allianz Türkiye Academy serves 2,500 employees, 4,800 agencies, and brokers with 19,000+ employees. It manages 72 development programs across three categories: strategic, functional and personal development. The Academy is a strategic partner to the business and a development partner for all employees. In 2023, it implemented two major upskilling programs:

- Sales conversion project which focused on fostering lifelong partnership between the customer and Allianz. This holistic program covers all the necessary skills ranging from sales licensing to product screen training and sales and persuasion skills.
- Finance hunters program was developed to strengthen financial literacy skill throughout the organization and contribute to the Allianz Türkiye strategic goal of "Financial Strength".

The Academy's outstanding work has been recognized with the prestigious ATD Best award in learning and development.

İlkay Özel
Chief People & Culture
Officer, Allianz Türkiye

Key facts

Learning and development play a crucial role in setting our company apart in the financial services industry. Our goal is to equip our employees with the skills they need both now and in the future, ensuring that we are well-prepared for emerging trends and opportunities.

- In 2023, we achieved a significant milestone by setting a record for learning hours. On average, our employees spent 50.0 hours on learning initiatives, surpassing the Allianz global target of 43 learning hours per employee. Additionally, we invested 109.2 million EUR globally – which is 743 EUR per employee – in training and development for our employees.
- We strongly support digital learning methods. Through our digital learning ecosystem, employees have access to our AllianzU platform powered by Degreed, as well as LinkedIn Learning. In 2023, we further enhanced the offerings on both platforms and reached 106,821 employees registered in Degreed. Total learning hours include self-directed learning (such as videos and podcasts) and web-based training, that together account for 42% of total learning hours.

- Developing our leaders is of utmost importance to us. We also encourage our leaders to obtain the Allianz Leadership Passport, which serves as the "license" to be a people leader at Allianz globally. By the end of 2023, 91.5% of our people leaders had refreshed their leadership passport.
- Developing our leaders is of utmost importance to us. In 2023, we placed particular emphasis on IT, data, and artificial intelligence for our leaders. We provided generative AI and ChatGPT training to all managers, aiming to familiarize Allianz leaders with new technologies and develop relevant use cases. Over a thousand managers participated in the training between October and December 2023.
- All our employee had an opportunity to invest half a day in upskilling and familiarizing themselves with various IT tools. We held a global Fit4IT day, which took place in 40 of our operating entities, covering approximately 85% of our employees.
- At Allianz, we are dedicated to developing and growing our people through performance management. The Personal Development Plan (PDP) outlines employees' yearly development goals. In 2023, 84% of our executives completed their PDP.

Outlook

Allianz is committed to fostering a culture of lifelong learning for all our employees. By 2024, our goal is not only to achieve 43 learning hours per employee but also to ensure that 25% of their learning time is dedicated to digital and data skills.

To achieve this ambition, we are further strengthening our skills in categories that matter for our people to stay employable and support their personal growth. These skill categories place equal emphasis on the development of both EQ (emotional quotient) skills, including curiosity, resilience, a collaborative mindset, and adaptability, as well as IQ (intelligence quotient) skills like digital and data literacy, problem-solving, business acumen, sustainability, and leadership skills.

Additionally, to better address the needs of our employees, we will be conducting a pulse survey to understand which skills our employees require to perform their current and future roles effectively.

We will also continue placing additional emphasis on the development of our leaders, focusing on exploring generative AI, hybrid leadership, resilience, and sustainability.

We run five global programs every year to develop strong leaders:

#lead Accelerate prepares current Global Executives for leading the organization with strategic project work, board exposure, peer coaching, and external insights.

#lead Transform is a program that equips potential and recently appointed Global Executives with the skills required to lead a modern workplace: managing complexity, dealing with uncertainty, leading large transformations, developing and empowering people and embracing diversity, equity and inclusion.

#lead Empower is structured around empowerment at three levels: empower yourself, others, and the business. It equips experienced executives with the skills and mindsets they need to thrive in a more complex, senior executive role.

#lead Ignite equips the next generation of Allianz leaders with the knowledge, skills, and mindset they need to excel in their leadership role. Participants learn to lead with their heads, hearts, and hands as they navigate this comprehensive and holistic program journey.

#sheleads equips female executives at Allianz with the tools, skills, and confidence they need to excel in leadership roles and advance their careers. The program hinges on the guidance and advocacy of dedicated, senior-level sponsors, who support participants through the program and beyond.

1) The Women Sponsorship Program started in 2019 and ran for 2 years. Thus, no new cohort started the program in 2020.

2) #lead Empower's 2021 cohort finished in July of 2022 due to Covid-19-related delays.

No new cohort of #lead Empower started in 2022. The program resumed in 2023.

In focus

In 2023 we introduced global minimum standards for employee benefits at Allianz. Regardless of the country and entity of employment, Allianz employees can avail themselves of essential benefits. We also launched the rebranding of Allianz benefits and organized them around four pillars helping our people navigate the benefits landscape:

- **Health:** health coverage and programs for physical and mental health
- **Money:** attractive employee share plan, pension provisions and even the buffering of loss of income in the event of severe disability
- **Career:** flexible, hybrid work models, parental leave, and social volunteering opportunities
- **Time:** learning and development programs, and mobility offerings for employees

Benefits offered globally are topped by a vast array of local benefits that vary according to country regulations and practices.

The latest Allianz Engagement Survey results are an indication of employees' increased appreciation of how Allianz rewards and recognizes our people.

Christian Ruckriegel
Head of Employee Benefits

Key facts

Fair compensation not only acknowledges employees' valuable contributions but also promotes equality within the organization. Allianz goes beyond remuneration by offering a comprehensive package of benefits to our employees.

- Since 2021, we have successfully implemented Equal Pay at Allianz insurance companies globally. This means that Allianz entities ensure equal pay for women and men who perform the same or similar work at their respective locations.
- Allianz employees can benefit from the company's success as shareholders, giving them a voice and increasing their engagement. The Employee Investment Day in September 2023 aimed to improve understanding of share ownership and trust in Allianz. More than 16,000 employees from around the world attended this event. In 2023, a record number of employees invested in Allianz shares and claimed their Free Share. In fact, 70% of our employees are also shareholders.

Outlook

True to our company purpose "We secure your future" and to Allianz's tradition of corporate social responsibility, the Allianz Board of Management decided to extend the Free Share scheme and link it to sustainability. The gift to employees of a Free Share is to be granted in 2025 and is contingent upon Allianz meeting its sustainability targets in 2024.

- In 2023, we launched "Mini Mobility," a new program that makes international mobility available to a broad employee base. This program gives employees the opportunity to spend between 30 and 90 days at a different Allianz company outside their own country of employment. The first movers were Allianz Australia, Allianz Life US, and Allianz Ireland.
- Allianz is committed to supporting parents and families by offering childcare facilities, leisure activities, emergency assistance, and other family services. In 2023, 8.6% of our employees took family-related leave.
- We continued to offer our employees the opportunity to work up to 25 days a year outside their country of employment in 2023. This allows them to visit family and friends or simply have a change of scenery. To date, Allianz employees have spent approximately 50,000 days working abroad for private reasons.

Furthermore, 2024 will see us working on evolving our offer of benefits available to employees globally. We will also further roll-out of the "Mini Mobility" program extending number of participating entities.

Allianz Group paid a total of EUR 14.7bn in personnel expenses to employees worldwide

Employee shareholders through ESPP	50% ¹	61%	70%
Investment volume ESPP (EUR mn)	133.9	144.4	164.0

The Allianz Employee Share Purchase Plan (ESPP) provides Allianz employees globally with the chance to partake in Allianz's success through one single scheme.

In 2023, the ESPP was available to Allianz employees in 43 countries. Allianz contributed to employees' investment: For every 3 euros, Allianz added 1 euro on top, resulting in a 25% discount.

The reference price was 224.11 EUR.

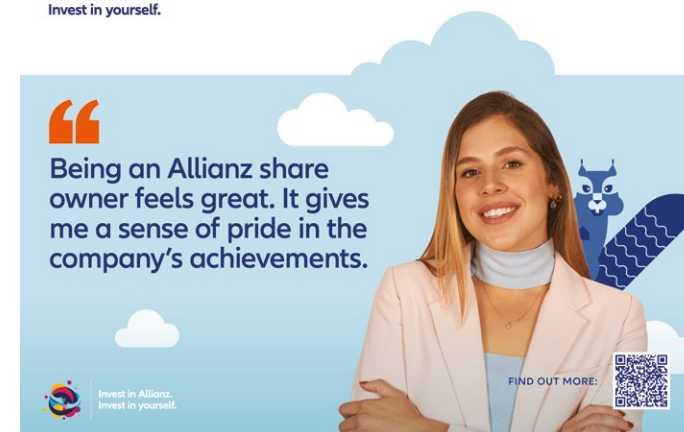

The Allianz shares have a holding period of 3 years.

In addition to that, employees were offered one tax-exempt Free Share as a thank you for Allianz meeting its financial and customer loyalty targets.

The number of ESPP shares allocated to employees under these plans was 835,872.

In focus

Awareness for mental health has increased in recent years. According to research, 90% of workers are exposed to mental health challenges, yet we are twice as likely to give support to a colleague than talk about our own challenges. To break the bias, Allianz launched the Mental Health Podcast “How are you really doing?” Season 2 in 2023, which features conversations with special guests from Allianz and beyond. Over the course of 10 episodes, 8 different leaders from Allianz Group around the globe shared their personal experiences with mental health, highlighting stories of hardship and triumph, practical tips, lessons learned, and wishes for the future of mental health in the workplace. For the first time, the Mental Health Podcast was made available to external audiences and reached over 10,000 listeners.

Angelika Inglsperger
Global Head of People & Strategy

Key facts

The health, safety, physical, and mental well-being of our employees is a top priority. In 2023 Allianz actively prioritized mental and physical health in the workplace through various initiatives:

- Allianz has successfully piloted the Mental Health First Aiders (MHFA) program in Germany, addressing the stigma against mental illness. Feedback from the 60 participants in the pilot was outstanding, with a Net Promotor Score of 70.
- Our Employee Assistance Program (EAP) offers psychological support to our employees and their families. In 2023, 98% of our workforce had access to EAP. Employee awareness reached a new high of 82%.

- In addition, the Allianz Mindfulness Movement provides science-based trainings and interventions to enhance focus, resilience, and well-being for employees. Notably, more than 1,800 employees have participated in the Emotional Intelligence Trainings known as “Search Inside Yourself”.
- Hybrid work has become a new reality for us, combining the flexibility of mobile working with the benefits of targeted collaboration and in-person connection. In 2023, our employees across the globe spent 51% of their time working from outside the office.

The positive impact of these initiatives is evident in the Work Well Index+ (WWI+), which measures employee well-being. The index score increased by 5 percentage points to 76% (compared to 71% in 2022), indicating higher employee well-being. Furthermore, the average number of sick days taken by Allianz employees decreased to 7.8 days in 2023 following a peak during the pandemic.

Outlook

Allianz will continue its commitment to health and well-being by building upon the initiatives launched in 2023.

- We will expand the scope of our “People Moments@Allianz – unfiltered” program to include discussions on health and well-being topics. This program, which can be found in more detail in the DEI section, aims to provide open and honest conversations.
- We are also exploring new digital tools to monitor and improve employee wellbeing, with pilots planned for Q1 2024. This platform will increase employee connectivity,

allow for more dedicated focus time, and provide even more mindfulness moments.

- Having rollout out our Employee Assistance Program to almost all Allianz employees, in 2024 we will focus on driving awareness even higher. This crucial program remains a top priority for Allianz, to support our employees when they need it most.

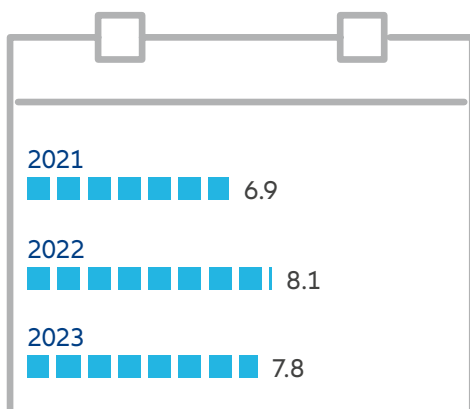

By continuing these initiatives and monitoring key indicators, Allianz remains committed to promoting the health and well-being of our employees.

At Allianz, we prioritize inclusive recruitment globally, starting with our job postings. Our recruiters use AI-powered software to create inclusive job descriptions that foster a sense of value and respect for all candidates. This helps mitigate biases and promote fairness in our hiring process. The platform analyzes language and provides guidance for more inclusive content. Integrated into our global recruiting software, it empowers over 20 English-speaking operating entities.

Vladislava Trimborn
Global Talent Acquisition
Expert

Key facts

To deliver our purpose, drive long-term business success and become a truly customer-centric organization, we want to attract, retain, and engage the best candidates and employees around the world.

- In 2023, Allianz welcomed a total of 25,128 new employees through a combination of internal promotions and external hires. External hirings accounted for 92% of the total.
- Allianz's global talent attraction remains strong, with consistent improvements in employer attractiveness rankings. In the "World's Most Attractive Employers" ranking by Universum, Allianz rose to 44th place (2022: 46th), making us the only insurer and one of seven German brands in the top 50.
- Our social media presence, particularly on Instagram, continues to be engaging. In 2023, we shared 118 Instagram posts related to "Employee Benefits," "Diversity, Equity &

Inclusion," "Career Development," and "Health & Well-being," resulting in above-average engagement rates of 5.3% (2022: 4.8%) compared to the market average of 1.9%.

- We prioritize measuring and optimizing the candidate journey, resulting in significant improvements in the Net Promoter Score (NPS). Satisfaction with the online application process increased to 62% (2022: 61%), and the NPS for the assessment and interviewing process rose to 72% (2022: 61%). Additionally, time-to-hire continues to be important measurement to ensure smooth hiring process.
- To attract tech and data talent, we launched a dedicated portal on our global career website, attracting over 3,000 prospects in 2023. We also published dedicated pages for audit, compliance, and risk careers to enhance our safeguarding functions.

Outlook

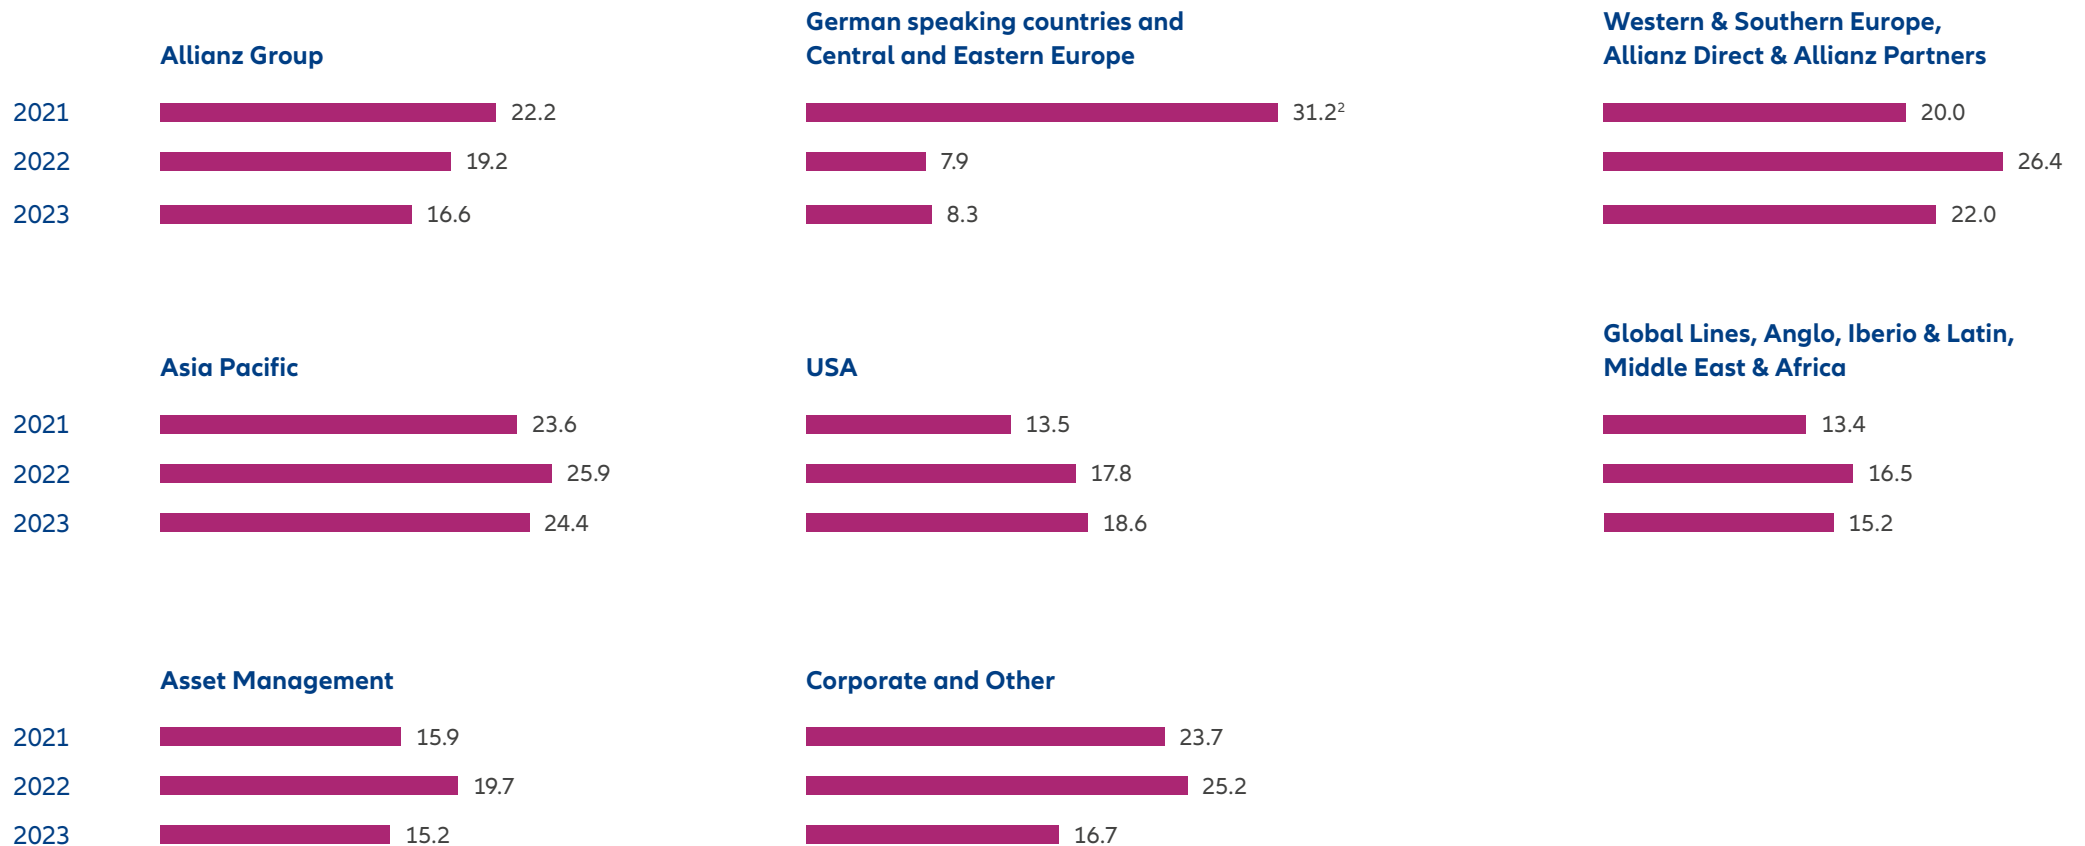

We continue to recognize the importance of a speedy and seamless hiring process to deliver an exceptional candidate experience. In 2023, we have already started to make this a priority across our organization. As a result, we already see significant improvements in our time-to-hire. But we will not stop here. Our ambition is to accelerate even more.

To achieve this, we are specifically looking at automizing the job interview scheduling procedure with the help of AI. Additionally, we work to identify key areas of long waiting times for our candidates to significantly improve their experience.

To meet the increasing demand for Tech and Data profiles, we will establish a Group-wide scholarship framework. This framework aims to award 160+ top students in 2024 and develop strong relationships with them. Ultimately, our goal is to hire as many of these scholars as possible upon their completion of studies.

The recruitment rate decreased in Allianz in 2023 driven by lower attrition rate¹

Recruitment rate (in %)

1) Due to normalising after the increased post pandemic hiring needs.

2) High recruitment rate in Germany in 2021 due to restructuring of Allianz Germany.

In focus

In 2023, we strengthened our workplace culture of empathy and understanding with the “People Moments @Allianz – Unfiltered!” video series. Featuring 12 colleagues sharing personal experiences and challenges, these unfiltered stories sparked open conversations and promoted mutual respect and support. Topics covered included working parents, coming out at work, career orientation, and more. In 2024, we’re excited to continue exploring flexible career transitions, navigating menopause, and ethnic diversity, among other important subjects.

Sandra Mills
Diversity, Equity and
Inclusion Consultant

Key facts

Our customers are diverse, and in order to best understand and serve them, our workforce needs to be diverse, too. We believe in an inclusive workplace with equal opportunities for all. We drive diversity and inclusion along 5 dimensions: gender, generation, nationalities/ethnicities, disability, and LGBTQ+.

- **Gender:** At Allianz, we are proud that we have achieved overall gender parity in our workforce, with women representing 52% of our employees. In our top management, women hold 34% of positions. Additionally, in 2024 our board consists of 44% women, reflecting our commitment to gender diversity. Women manage approx. 30% of our operating profits, reflecting our commitment to gender diversity.
- **Generations:** With five different generations currently working together at Allianz, we strive for a balanced generational representation. Our goal is to have GenZ and GenY (employees under 35 years old) represent at least 25% of our global workforce. In 2023, 34% of our workforce was younger than 35, ensuring a diverse and balanced generational mix.
- **Nationalities and generation:** There are five nationalities represented in the Allianz SE Board of Management. Members of our Allianz SE Supervisory Board range in age from 53 years to 69 years (2022: 52 years to 68 years), and members of the Allianz SE Board of Management range in age from 49 years to 59 years (2022: 48 years to 64 years).

- **Disability:** Through an anonymous self-ID survey in 2023, we discovered, that the number of employees with subjectively perceived disabilities is 5.6%. Self-ID helps Allianz to create transparency on disability representation.
- **Employee networks** play a crucial role in engaging our workforce. They raise awareness, provide support, and advocate for change. We are proud to have five global employee networks, which are further strengthened by 81 local network chapters. In 2023, we successfully established 15 new local networks, enhancing employee engagement at a grassroots level.

At Allianz, we believe in integrating diversity, equity, and inclusion (DEI) into our daily business operations. As part of this commitment, we conducted the global Mentoring Campaign #KeepExploring throughout 2023. This campaign showcased an intersectional approach, featuring personal experiences of employees who embody multiple diversity dimensions, such as different generations, nationalities, and genders.

Outlook

Our workforce encompasses five generations, and we want to improve collaboration among them while ensuring effective knowledge transfer. To achieve this, we are implementing a mentoring program in 2024. New joiners will have the opportunity to be mentored by experienced colleagues, enhancing their onboarding process and retaining valuable knowledge.

We also recognize the impact of socio-economic background on educational and career opportunities, and the biases faced by individuals from disadvantaged backgrounds. Allianz is committed to reducing these barriers, promoting workplace equality, and fostering social diversity. In 2024 our actions are targeted at students and young adults, where we focus on creating access to education and equipping individuals with workplace skills.

Since 2006, Allianz has been a partner of the Paralympic Movement supporting Para athletes to achieve sporting excellence and to inspire the world. In preparation for the 2024 Paralympics, Allianz is strategically building candidate pools for scarce profiles, including Para athletes and Olympians. This ensures that the most talented individuals from these special target groups have the opportunity to showcase their abilities on the global stage.

Good working conditions along with equal treatment and equal opportunities for all are the basis for the employee matters section. These subjects are an integral part of our brand value and societal commitments, as reflected in our ratings.

In focus

As part of the Good Work Alliance, members commit to setting at least three time-bound, quantifiable targets aligned with the Good Work Framework goals, e.g., deliver on health and well-being, drive DEI and foster employability and learning culture. We committed to the following targets for 2024:

- Increase the overall well-being of the workforce, reflected in an improved score on the Work Well Index (WWI+) compared to the 2022 results. We are on a good track. In 2023 WWI+ score has improved by +5%p compared to 2022 and is at 76%.
- Have at least 38% women in top management positions. In 2023 women hold 34% of positions in our top management.
- Reach on average at least 43 hours of learning per employee p.a. In 2023 our employees spent 50.0 hours on learning initiatives on average.

Key facts

Our efforts in engaging with our employees have been recognized with various global and local awards and certifications. We are particularly proud of the following global awards:

- In 2023, we achieved Great Place to Work certifications at 43 entities across 26 countries, which is a significant increase from the 15 entities certified in 2022. Great Place to Work is an international recognition program that assesses and certifies workplace cultures.
- Our efforts on equal pay have also been recognized externally, and in 2023, Allianz was recertified by EDGE. EDGE is the leading standard for diversity, equity, and inclusion and measures companies' progress on gender equality against established criteria, including equal pay.

- Furthermore, in 2023, Allianz was ranked number 1 in the Insurance industry and number 1 in Germany by the Refinitiv D&I Index. Allianz is the only insurance company in the top 15 and the only German company among the top 20. The Refinitiv D&I Index identifies the top 100 publicly traded companies with the most diverse and inclusive workplaces.

Allianz demonstrates a commitment that goes above and beyond in taking care of its employees. We are also deeply committed to making a positive impact on society:

- Our commitment is exemplified by our support of the signed charters UN Women's Empowerment Principles and U.N. "Free & Equal" LGBT Code of Conduct.

Outlook

We are committed to further collaborating with Great Place to Work, with an even greater number of local entities participating in the certification process.

Through global and local corporate citizenship programs we will continue to support social resilience for the people who live and work in the communities in which we operate. We will support programs that enhance education, promote physical activity, enable employability and financial literacy.

Our Allianz-affiliated foundations take up the overall sustainability strategy with their own programs ranging from fostering a climate friendly transition of societies to social initiatives with focus on next generations and people with disabilities.

43 entities in 26 countries certified Great Place to Work® in 2023

Glossary

Allianz Executives (top management positions)	Number of employees holding a graded position of Allianz Executives (AE, grade 13-15) based on Allianz Grading System (AGS) method.	Length of service in years	Period of employment in years in Allianz companies starting from the date of the first entry in an Allianz company.
Allianz Global Executives (top management positions)	Number of employees holding a graded position of Allianz Global Executives (AGE, grade 18-22) based on Allianz Grading System (AGS) method.	Manager	Employee who is functionally responsible for other staff, regardless of level, e.g., division, department, and team manager.
Allianz Management Program	Allianz Management Program is a leadership development program consisting of two modules with a strong focus on self-leadership and change, designed for confirmed future potentials with leadership experience.	Net Promoter Score	Net Promoter Score is the key KPI system at Allianz for measuring loyalty and advocacy. Responses are on a scale from 0 to 10 and categorized as follows: promoters (10-9), passives (8-7), and detractors (6-0). NPS is calculated by subtracting the percentage of detractors from the percentage of promoters.
Allianz Senior Executives (top management positions)	Number of employees holding a graded position of Allianz Senior Executives (ASE, grade 16-17) based on Allianz Grading System (AGS) method.	Operating profit	Earnings from ordinary activities before income taxes and non-controlling interests in earnings, excluding, as applicable for each respective segment, all or some of the following items: Income from financial assets and liabilities carried at fair value (net), realized gains/losses (net), impairments on investments (net), interest expenses from external debt, amortization of intangible assets, acquisition-related expenses, and income from fully consolidated private equity investments (net) as this represents income from industrial holdings outside the scope of operating business.
Dividend	That part of the earnings of a company that is distributed to its shareholders.	Recruitment rate	Total number of recruitments divided by yearly average number of employees. Trainees recruited for a traineeship position are out of scope.
Employees with disability	Employees with disability or equal in law to disabled employees. Disability in terms of declared or visible disability or stated in "disability cards" according to local legal legislations.	Salaried workforce	Employees (headcount) on the reporting unit's payroll, excluding, e.g., employees on sabbatical leave, employees on non-paid parental leave.
External recruitment	Number of employees recruited from outside the Allianz Group.	Shareholders' core net income	Presents the portion of shareholders' net income before non-operating market movements and before amortization of intangible assets from business combinations.
HC RoI	The Human Capital Return on Investment provides a measure regarding the effectiveness of an organization's human capital investments. The metric reveals the amount of money returned for every euro spent in human capital. Formally, the HCROI is calculated based on the following formula: $\text{HC RoI} = \frac{\text{revenue} - [\text{expenses} - (\text{pay} + \text{benefits})]}{(\text{pay} + \text{benefits})} - 1$	Shareholders' equity	Proportion of the equity that is attributable to shareholders.
Internal recruitment	Number of employees recruited from another Allianz company.	Sick leave days	Total number of working days missed due to sickness.
International assignments	Number of employees working in a foreign country (host country) for a predetermined period of time with the intention to return to the sending company in the home country after completion of the assignment.		

Solvency II capitalization ratio	Ratio indicating the capital adequacy of a company comparing eligible own funds to required capital, based on Solvency II Regulation.
Staff	Employee who is not functionally responsible for other employees.
Total revenues	Represent the sum of P/C segment's gross premiums written, L/H segment's statutory premiums, operating revenues in Asset Management, and total revenues in Corporate and Other (Banking).
Trainees	Employees at the beginning of their career who are undergoing practical training designed to facilitate their development of knowledge and skills, e.g., apprentices, trainees, interns, and working students. Trainees could be either full-time or part-time.
Training days per employee	Number of days spent by employees in training. Trainings of less than 3 hours' duration are also included.
Training expenses	Effective spending on training per employee, excluding related expenses (e.g., travel expenses) and further costs (e.g., internal academy costs).
Turnover rate	Number of employees leaving the Allianz Group divided by yearly average number of employees.
Voluntary turnover rate	Number of employees who left Allianz Group voluntary, e.g. under the terms of a mutually agreed termination contract initiated by the employee divided by the yearly average number of employees.

Independent Practitioner's Report on a Limited Assurance Engagement on People Fact Book Information

To Allianz SE, Munich

We have performed a limited assurance engagement on the disclosures denoted with "✓" in the People Fact Book of Allianz SE, Munich (hereinafter "the Company"), for the period from January 1, 2023 to December 31, 2023 (hereinafter the "Report"). Our engagement in this context relates solely to the disclosures denoted with the symbol "✓".

Responsibilities of the Executive Directors

The executive directors of the Company are responsible for the preparation of the disclosures denoted with "✓" in the Report in accordance with the principles stated in the Sustainability Reporting Standards of the Global Reporting Initiative (hereinafter the "GRI-Criteria") and for the selection of the disclosures to be evaluated.

This responsibility of Company's executive directors includes the selection and application of appropriate methods of

sustainability reporting as well as making assumptions and estimates related to individual sustainability disclosures, which are reasonable in the circumstances. Furthermore, the executive directors are responsible for such internal controls as they have considered necessary to enable the preparation of a Report that is free from material misstatement whether due to fraud or error.

Audit Firm's Independence and Quality Management

We have complied with the German professional provisions regarding independence as well as other ethical requirements.

Our audit firm applies the national legal requirements and professional standards – in particular the Professional Code for German Public Auditors and German Chartered Auditors ("Berufssatzung für Wirtschaftsprüfer und vereidigte Buchprüfer": "BS WP/

vBP") as well as the Standard on Quality Management 1 published by the Institut der Wirtschaftsprüfer (Institute of Public Auditors in Germany; IDW): Requirements to quality management for audit firms (IDW Qualitätsmanagementstandard 1: Anforderungen an das Qualitätsmanagement in der Wirtschaftsprüferpraxis – IDW QMS 1 (09.2022)), which requires the audit firm to design, implement and operate a system of quality management that complies with the applicable legal requirements and professional standards.

Practitioner's Responsibility

Our responsibility is to express a limited assurance conclusion on the disclosures denoted with "✓" in the Report based on the assurance engagement we have performed.

We conducted our assurance engagement in accordance with the International Standard on Assurance Engagements

(ISAE) 3000 (Revised): Assurance Engagements other than Audits or Reviews of Historical Financial Information, issued by the IAASB. This Standard requires that we plan and perform the assurance engagement to allow us to conclude with limited assurance that nothing has come to our attention that causes us to believe that the disclosures denoted with "✓" in the Company's Report for the period from January 1, 2023 to December 31, 2023 have not been prepared, in all material aspects, in accordance with the relevant GRI-Criteria. This does not mean that a separate conclusion is expressed on each disclosure so denoted.

In a limited assurance engagement the assurance procedures are less in extent than for a reasonable assurance engagement and therefore a substantially lower level of assurance is obtained. The assurance procedures selected depend on the practitioner's judgment.

Within the scope of our assurance engagement, we performed amongst others the following assurance procedures and further activities:

- Obtaining an understanding of the structure of the sustainability organization and of the stakeholder engagement
- Inquiries of personnel involved in the preparation of the Report regarding the preparation process, the internal control system relating to this process and selected disclosures in the Report
- Identification of the likely risks of material misstatement of the Report under consideration of the GRI-Criteria
- Analytical evaluation of selected disclosures in the Report
- Evaluation of the presentation of the selected disclosures regarding sustainability performance.

Assurance Conclusion

Based on the assurance procedures performed and assurance evidence obtained, nothing has come to our attention that causes us to believe that the disclosures denoted with “✓” in the Company’s Report for the period from January 1, 2023 to December 31, 2023 have not been prepared, in all material aspects, in accordance with the relevant GRI-Criteria.

Intended Use of the Assurance Report

We issue this report on the basis of the engagement agreed with the Company. The assurance engagement has been performed for purposes of the Company and the report is solely intended to inform the Company as to the results of the assurance engagement. The report is not intended to provide third parties with support in making (financial) decisions. Our responsibility lies solely toward the Company. We do not assume any responsibility towards third parties.

Cautionary note regarding forward-looking statements

This document includes forward-looking statements, such as prospects or expectations, that are based on management's current views and assumptions and subject to known and unknown risks and uncertainties. Actual results, performance figures, or events may differ significantly from those expressed or implied in such forward-looking statements. Deviations may arise due to changes in factors including, but not limited to, the following: (i) the general economic and competitive situation in Allianz's core business and core markets, (ii) the performance of financial markets (in particular market volatility, liquidity, and credit events), (iii) adverse publicity, regulatory actions or litigation with respect to the Allianz Group, other well-known companies, and the financial services industry generally, (iv) the frequency and severity of insured loss events, including those resulting from natural catastrophes, and the development of loss expenses, (v) mortality and morbidity levels and trends, (vi) persistency levels, (vii) the extent of credit defaults, (viii) interest rate levels, (ix) currency exchange rates, most notably the EUR/USD exchange rate, (x) changes in laws and regulations, including tax regulations, (xi) the impact of acquisitions, including and related to integration issues and reorganization measures, and (xii) the general competitive conditions that, in each individual case, apply at a local, regional, national, and/or global level. Many of these changes can be exacerbated by terrorist activities.

No duty to update

Allianz assumes no obligation to update any information or forward-looking statement contained herein, save for any information we are required to disclose by law.
