

Training 7: Digitalization

Task 1

Together with the person sitting next to you, think about some of the advantages and disadvantages of the social media and the internet. Note these in the pro/con list below.

.....
.....
.....
.....

Task 2

Consider and calculate:

How much does the mobile phone contract from the “All you can scroll” provider cost in the first two years? (optional additional task: How much does the tariff cost per month?)

Provider	Plan	Price per month (EUR)	Data included	One time payment	Shipping costs	Notice period
All you can scroll	Flat tariff	EUR 15*	Unlimited	EUR 60	EUR 9.6	3 months

Price includes taxes. Tariff is not available in all territories. Other services such as calls, and SMS might incur in additional expenses.

In line with consumer protection authorities and regulations.

*From the 13th month onwards, the monthly payment is EUR 30.

Training 7: Online and finances

Task 3

As a team, develop the questions below to fit your assigned group topic. (1. Privacy settings, 2. Own device or 3. Handling data of others)

1. What problems can occur with inadequate protection in your subject?

2. How can I prevent these problems and protect myself?

3. Finally, pick one idea and formulate a tweet from it that you would like to share with other kids. Make sure that this message is short and to the point.

Allianz Finance Workout Tips

Before signing a contract, pay attention to the fine print/terms and conditions and choose a contract that suits your usage behavior.

There's nothing free on the Internet – you always pay at least with your data!

Internet is part of life, but don't have to be the center of your life!
