Pursuing highest corporate governance standards

- **European sovereign debt crisis:** Allianz firmly committed to European unity, playing a constructive role in developing lasting solutions to the crisis
- Implementation of **Anti-Corruption Program** continued Group-wide
- **Allianz4Good Network** established in 2011 to strengthen CR governance and help steer CR activities across the Group
- Commitment to collaborate on sustainability issues: **Allianz Forum** in Berlin inaugurated in 2011; events: e.g. **Demography Forum** hosted in January 2012
- **Other topics:**
 - Two-tier **Board system**
 - Compliance with **German Corporate Governance Code** (exception: fixed compensation for Supervisory Board)
 - Internal **Code of Conduct** which is obligatory for all employees and forms part of employment contracts
 - **Remuneration scheme** for top management integrating sustainability into compensation

Key global issues identified via materiality assessment

Allianz Materiality Landscape¹

1) A systematic materiality process regularly undertaken by Allianz identifies the most important challenges and opportunities relating to global issues now and in the future: Access to finance, Climate change, Demographic change, Stability of financial markets, Digitalization. The Allianz Materiality Landscape presents the outcome of this process by highlighting which sub-issues are perceived to be most material to Allianz' business. The issues flagged in blue are those global issues with a very long-term horizon impacting our business over decades; these issues are presented in a dedicated section called "Global issues". In contrast, the issues flagged in green are the issues of today with a more short to mid-term impact on our business; these topics are covered in several sections, where relevant, throughout our report.

Offering a growing range of “green” products and services

- We are working on developing new products and services for our customers to help them mitigate the effects of climate change and manage their own environmental impact, e.g., Allianz RCM Global EcoTrends Fund, Fireman’s Fund Green Auto Hybrid Upgrade
- In 2011, the number of “green” products and services offered by Allianz increased from 70 to over 80

Expanding our renewable energy portfolio

- Our investment in renewable energy projects topped EUR 1.3bn in 2011 and now includes some 38 wind and solar parks
- Direct wind energy investments particularly strengthened in France
- Renewables portfolio also increased via direct photovoltaic park investments in France & Italy
- Further increase of portfolio planned

Offering microinsurance to more than 3.8mn customers generating EUR 57mn in revenues¹

Employee diversity: more women in leadership positions

1) Including women at all executive positions below the Board of Management.

2) Including women functionally responsible for other staff, regardless of level, e.g. division, department and team managers.

Employee engagement: engaging our employees for the community's benefit

- We support and encourage volunteering among our employees, and the use of their expertise and competencies for the community's benefit
- In the **Social OPEX** initiative, trained Allianz employees apply business improvement tools to help socially committed organizations
- Their involvement contributes to pride and identification with our company, building skills and team development

Community investment: structured involvement in the communities where we operate

- Through structured involvement with strategic partners in the communities where we operate, we support the development of effective solutions to address social concerns
- In 2009, we launched the initiative **My Finance Coach** to take finance into schools; in 2011 we reached 65,800 pupils across Germany and 1,700 in Indonesia through corporate volunteering, teacher training and extracurricular activities
- Familiarizing young people with financial issues will help them to make better financial decisions now and in the future

Government and international organizations: sharing knowledge and shaping the discussion

- We actively participate in international working groups for climate change, asset management and insurance, as part of the UNEP Finance Initiative
- Allianz promotes dialog between the worlds of business, academia, politics and civil society through the Allianz Forum in Berlin
- A globally-acting, central department provides political issue management and government relations expertise for the Group

Management compensation: a system which strengthens the importance of sustainable development

	Old structure ¹	New structure ²			
Base salary	25%	25%	1/4 fix	Monthly payments	Structure of targets
Annual bonus	37%	25%	3/4 variable	Annual target achievement	
Mid-term bonus	11%	25%		Mid-term target achievement (3 years) + sustainability of annual target achievement	Division 25%
Stock-based compensation	27%	25%		Vesting after 4 years	Allocation based on target performance

Malus: Annual accumulation and deferred payment of mid-term bonus allows easy claw-back if short-term performance turns out to be non-sustainable or below market

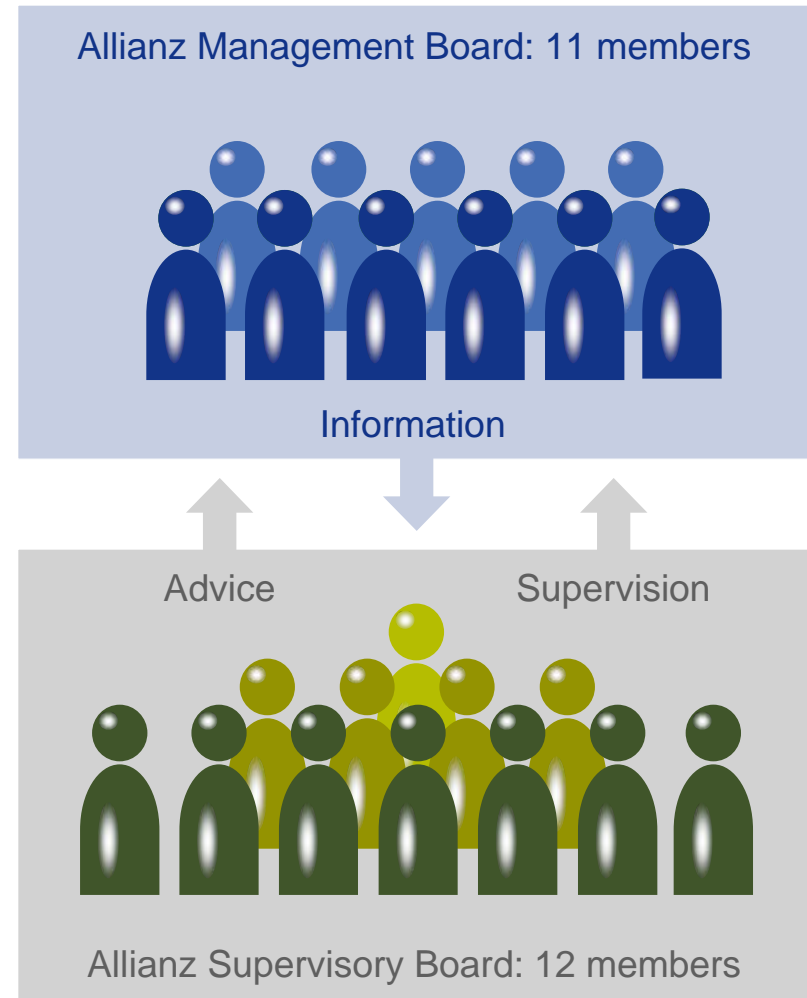

Retention: Accumulated non-vested stock compensation expires if manager leaves at own request or at fault

1) Up to and including remuneration for fiscal year 2009

2) Beginning with fiscal year 2010

Governance system: a two-tier system consisting of Management Board + Supervisory Board

- Two-tier system widespread in continental Europe
- Allianz Management Board: 11 members
 - manages Allianz Group
 - regional and functional responsibilities
 - informs Supervisory Board about strategy + business development
- Allianz Supervisory Board: 12 members
 - supervision of / advice to Management Board; appointment of members of Management Board
 - audit committee, standing committee, personnel committee, risk committee, nomination committee
- Advantages of two-tier system:
 - clear separation of management and supervision/control
 - shareholders' interests more effectively represented given a dispersed shareholder structure
