Sustainable Development at Allianz means ...

“

... combining **long-term economic value creation**

with a holistic approach to **Environmental** stewardship,

Social responsibility and

good corporate **Governance**.

”

There are both risks to manage and opportunities to seize to realize sustainable and profitable growth

ESG risks managed as part of our core business processes:

Risk management is our core competency as a large insurer & institutional investor

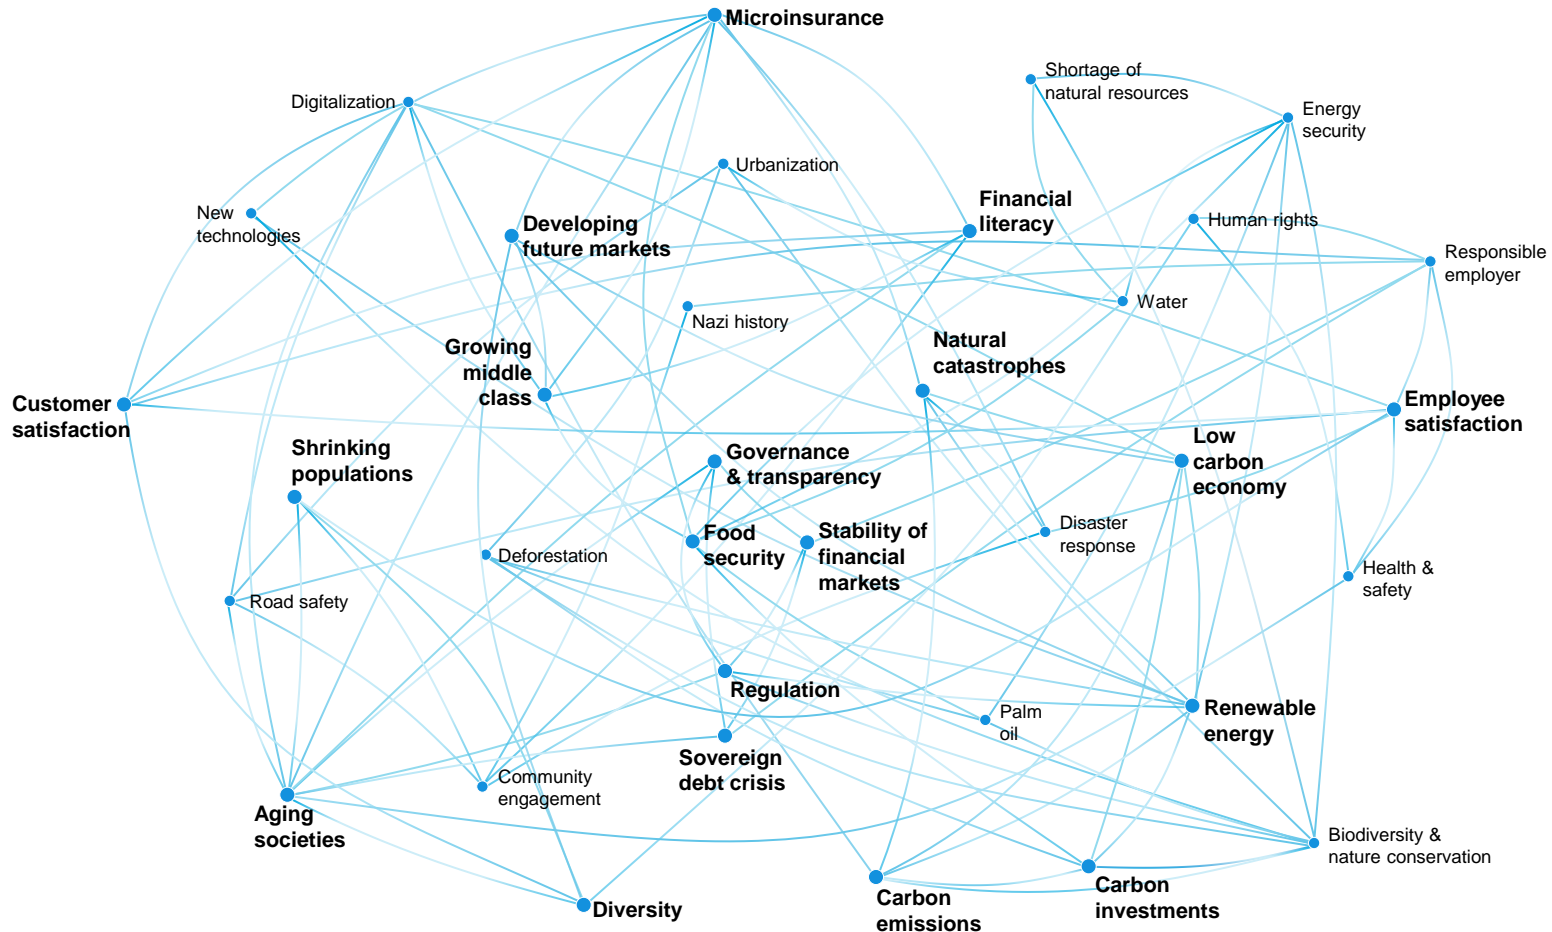

ESG opportunities captured:

Social & Environmental considerations create commercial growth **opportunities** to seize

ESG issues in society addressed:

With a presence in around 70 markets globally we take our **responsibility** towards society seriously & use our core competencies to address critical needs

Such material issues are often directly or indirectly linked, making a complex landscape for Allianz to deal with ...

... a structured approach helps in addressing these issues and provides transparency on our activities
