### Evaluation of unused budget for external growth every 3 years, starting end of 2016

1) This dividend policy represents the management’s current intention and may be revised in the future. Also, the decision regarding dividend payments in any given year is subject to specific dividend proposals by the management and supervisory boards, each of which may elect to deviate from this dividend policy if appropriate under the then prevailing circumstances, as well as to the approval of the annual general meeting.

3 Our sustainability performance
Sustainable Development at Allianz means …

… combining long-term economic value creation with a holistic approach to Environmental stewardship, Social responsibility and good corporate Governance.
There are both risks to manage and opportunities to seize to realize sustainable and profitable growth.

ESG risk management
Managing risks and safeguarding reputation (e.g. NatCat risks)

ESG opportunity management
Seizing opportunities and creating shared value (e.g. green solutions)

Community engagement
Supporting the communities in which we operate (e.g. Allianz Environmental Foundation)

ESG risks managed as part of our core business processes:
Risk management is our core competency as a large insurer & institutional investor

ESG opportunities captured:
Social & Environmental considerations create commercial growth opportunities to seize

ESG issues in society addressed:
With a presence in around 70 markets globally we take our responsibility towards society seriously & use our core competencies to address critical needs
Such material issues are often directly or indirectly linked, making a complex landscape for Allianz to deal with …
… a structured approach helps in addressing these issues and provides transparency on our activities
