How to read the table?

Example: An investor bought Allianz shares at year end 2019 and sold them at year end 2024. Provided the dividend was reinvested in Allianz shares, the investment has seen an increase of 11.9% p.a.

■ >10%
 ■ 0% to 10%
 ■ -10% to 0%
 ■ < -10%

Source: Bloomberg

Assumptions: reinvestment of dividends, adjustments for capital measures, buy and sell transactions at year end
