### About Allianz

Together with its customers and sales partners, Allianz is one of the strongest financial communities. Over 83 million private and corporate customers insured by Allianz rely on its knowledge, global reach, capital strength and solidity to help them make the most of financial opportunities and to avoid and safeguard themselves against risks.

In 2013, around 148,000 employees in over 70 countries achieved total revenues of 110.8 billion euros and an operating profit of 10.1 billion euros. Benefits for our customers reached 93.9 billion euros.

This business success with insurance, asset management and assistance services is based increasingly on customer demand for crisis-proof financial solutions for an aging society and the challenges of climate change. Transparency and integrity are key components of sustainable corporate governance at Allianz SE.
