| DAC | Deferred acquisition costs: Commissions, underwriting expenses and policy issuance costs, which vary with and are primarily related to the acquisition and renewal of insurance contracts. These acquisition costs are deferred, to the extent that they are recoverable, and are subject to recoverability testing at the end of each accounting period. |
| Fair value (FV) | The amount for which an asset could be or is exchanged between knowledgeable, willing parties in an arm's length transaction. |

Glossary (2)

| | |
|-------------------------------------|---|
| Goodwill | Difference between a subsidiary's purchase price and the relevant proportion of its net assets valued at the current value of all assets and liabilities at the time of acquisition. |
| Government bonds | Government bonds include government and government agency bonds. |
| Gross/Net | In insurance terminology the terms "gross" and "net" mean before and after consideration of reinsurance ceded, respectively. In investment terminology the term "net" is used where the relevant expenses (e.g. depreciations and losses on the disposal of assets) have already been deducted. |
| IFRS | International Financial Reporting Standards. Since 2002, the designation of IFRS applies to the overall framework of all standards approved by the International Accounting Standards Board. Standards already approved before will continue to be cited as International Accounting Standards (IAS). |
| Internal growth | Enhances the understanding of our total revenue performance by excluding the effects of foreign currency translation as well as of acquisitions and disposals. |
| L/H | Life and health insurance |
| L/H operating profit sources | <p>The objective of the Life/Health operating profit sources analysis is to explain movements in IFRS results by analyzing underlying drivers of performance on a L/H segment consolidated basis.</p> <p>Loadings & fees: Includes premium and reserve based fees, unit-linked management fees and policyholder participation on expenses.</p> <p>Investment margin: Is defined as IFRS investment income net of expenses less interest credited to IFRS reserves less policyholder participation.</p> <p>Expenses: Includes commissions, acquisition expenses and administration expenses</p> <p>Technical margin: Comprises risk result (risk premiums less benefits in excess of reserves less policyholder participation), lapse result (surrender charges and commission claw-backs) and reinsurance result.</p> <p>Impact of change in DAC: Includes effects of change in DAC, URR and VOBA and is the net impact of deferral and amortization of acquisition costs and front-end loadings on operating profit .</p> |

Glossary (3)

| | |
|----------------------------------|---|
| Loss frequency | Number of accident year claims reported divided by number of risks in-force |
| Loss ratio | Claims and insurance benefits incurred (net) divided by premiums earned (net). Loss ratio calendar year (c.y.) includes the results of the prior year reserve development in contrast to the loss ratio accident year (a.y.). |
| Loss severity | Average claim size (accident year gross claims reported divided by number of claims reported) |
| MCEV | Market consistent embedded value is a measure of the consolidated value of shareholders' interest in a life portfolio. The Market Consistent Embedded Value is defined as Net asset value (NAV) <ul style="list-style-type: none"> + Present value of future profits - Time value of financial options and guarantees (O&G) - Frictional cost of required capital - Cost of residual non-hedgeable risk (CNHR) |
| NatCat | Accumulation of claims that are all related to the same natural or weather/atmospheric event during a certain period of time and where AZ Group's estimated gross loss exceeds EUR 20mn if one country is affected (respectively EUR 50mn if more than one country is affected); or if event is of international media interest. |

Glossary (4)

| | |
|--|--|
| Operating profit | Earnings from ordinary activities before income taxes and minority interests in earnings, excluding, as applicable for each respective segment, all or some of the following items: Income from financial assets and liabilities carried at fair value (net), realized gains/ losses (net), impairments on investments (net), interest expense from external debt, amortization of intangible assets, acquisition-related expenses and income from fully consolidated private equity investments (net) as this represents income from industrial holdings outside the scope of operating business. |
| P/C | Property and casualty insurance |
| PIMCO | Pacific Investment Management Company Group |
| Premiums written/ earned (IFRS) | Premiums written represent all premium revenues in the year under review. Premiums earned represent that part of the premiums written used to provide insurance coverage in that year. In the case of life insurance products where the policyholder carries the investment risk (e.g. variable annuities), only that part of the premiums used to cover the risk insured and costs involved is treated as premium income. |
| Reinsurance | Where an insurer transfers part of the risk which he has assumed to another insurer. |
| Required capital | The market value of assets attributed to the covered business over and above that required to back liabilities for covered business whose distribution to shareholders is restricted. |
| SE | Societas Europaea: European stock company |
| Shadow DAC | Shadow accounting is applied in order to include the effect of unrealized gains or losses from the debt or equity securities classified as available for sale in the measurement of Deferred Acquisition Costs in the same way as it is done for realized gains or losses. Due to virtual (shadow) realization of unrealized gains or losses Deferred Acquisition Costs are adjusted with corresponding charges or credits recognized directly to shareholders' equity |
| Solvency ratio | Ratio indicating the capital adequacy of a company comparing eligible funds to required capital |
| Sovereign bonds | Sovereign bonds include government and government agency bonds |

Glossary (5)

Statutory premiums

Represent gross premiums written from sales of life insurance policies, as well as gross receipts from sales of unit-linked and other investment-oriented products, in accordance with the statutory accounting practices applicable in the insurer's home jurisdiction

Stress tests

Conglomerate solvency ratio stress tests are based on the following scenarios

- **Credit loss / migration:** scenario based on probabilities of default in 1932, migrations adjusted to mimic recession and assumed recovery rate of 30%
- **Credit spread:** 100bps increase of credit spreads across all rating classes
- **NatCat:** loss due to NatCat events, both natural and man-made, leading to annual claims of EUR 1.6bn. Applies to P/C business only

Total revenues

Represent the sum of P/C segment's gross premiums written, L/H segment's statutory premiums, operating revenues in Asset Management and total revenues in Corporate and Other (Banking)

Unrealized gains and losses (net) (as part of shareholders' equity)

Include primarily unrealized gains and losses from available-for-sale investments net of tax and policyholder participation

VNB

Value of new business: The additional value to shareholder created through the activity of writing new business. It is defined as present value of future profits (PVFP) after acquisition expenses minus the cost of option and guarantees (O&G), minus the cost of residual non-hedgeable risk (CNHR), minus the frictional cost of holding required capital, all determined at issue date

3-year-outperformance AM

The investment performance is based on Allianz Asset Management account-based, asset-weighted three-year investment performance of third-party assets versus the primary target including all accounts managed by portfolio managers of Allianz Asset Management. For some retail funds, the net of fee performance is compared to the median performance of the corresponding Morningstar peer group (first and second quartile mean outperformance). For all other retail funds and for all institutional accounts, the gross of fee performance (revaluated based on closing prices) is compared to the respective benchmark based on different metrics.
