Abibatou Meriko, Senegal, shares her claim experience - and so does her Allianz claim handler ➔ read interviews
2013 full-year results:
Growth continues to reach 24.9mn lives insured

Strong Term Life and Credit Life sales in India and Indonesia push number of insured. Net of currency depreciation, YoY GWP growth would have been 26% instead of 10%.

1) GWP = Gross Written Premium
2) Insured assets, e.g. cattle, homes and motorcycles are not included in the count of insured lives
2013 growth mostly driven by organic growth of partnerships in India and Indonesia; other markets face more challenges

**Outlook 2014:** New regulations in India and consequent product revamping will likely lead to a decrease in GWP, while no. of insured lives will be less affected.

^1 GTL = Group Term Life
Feature Story: The people behind the files
Interviews with a microinsurance beneficiary in Senegal and the Allianz employee who handled her claim

- In 2013, Ms. Mah Meriko takes out a microcredit of USD 105 from FIDES Microfinance Senegal, a microinsurance distribution partner of Allianz Senegal.¹
- Her loan comes automatically bundled with a micro credit life insurance from Allianz.²
- Shortly after taking out the loan, Ms. Mah Meriko dies of illness, leaving her family with an unpaid loan balance of USD 95.

What did you do with the money from the insurance?
I gave it to my other sister who took charge of organizing the funeral.

A payout of US$10 is not much, even in Senegal.

Did you still find the insurance useful?
Yes, receiving the insurance money was a nice gesture. Before, I didn’t believe that insurance really works. The most helpful thing was that the insurance paid back the USD 95 balance of my sister’s loan.

Did you wait a long time for the claim payment?
It was reasonable. Around 15 days. The process was not so complicated because the staff of FIDES Microfinance Senegal helped with everything.

How do you see a claim like Abibatou’s?
The money may seem small but it still means a lot to these customers. Abibatou’s late sister had just managed to repay one instalment of her loan, so the debt forgiveness really helped this family.

How fast do you process such micro claims?
On average, we need between one and two months. It should be faster but we are still a small team. Luckily, next week two trainees will join to help us.

What is your one advice for microinsurance claim managers?
You have to see the people behind the files. It was enlightening for me when I visited the area where Abibatou lives for the first time some weeks ago.

---

¹ The assistance of FIDES in facilitating the interview with Abibatou Meriko is much appreciated.
² In the case of FIDES, Allianz repays 100% of the initial loan in case of death or total permanent disability of borrower or spouse. See here for general product information.

Appendix
What is Microinsurance?

Microinsurance offers protection against the risks in life, specifically for low-income people in developing countries and emerging markets, with customized products and processes.²

Market size:
- 2.7bn people
- USD 40bn potential premium per year³

1) 2010 data, based on World Bank PovcalNet (2014), World Bank World Population Dataset (2014); Income measured at Purchasing Power Parity (PPP) per capita per day.
2) The Allianz Group microinsurance definition may differ from local regulatory definitions. See our more detailed Allianz operational microinsurance definition.
3) SwissRe Sigma (2010)
What is Microinsurance:
A Customer Story from Indonesia

- In 2007, Ms. Siti Muhibah takes out a 10-month microcredit of US$100 from a microfinance institution in Jakarta to grow her cookies shop
- Her loan comes with an Allianz micro life insurance that costs US$1.20 for 10 months
- On Oct 4, 2007 Siti dies of diabetes complications
- Her daughter Zakiyah (photo) receives US$200 from Allianz
- On top, Allianz pays off the rest of the loan

Claim payout
US$200

- US$50 for funeral
- US$15 as savings
- US$135 as investment for her textile trading business

- As a result, Zakiyah increases her income from US$2 to US$6/day.
- She can compensate for her mother’s lost income and take care of a family of six.
Why we do it: Micro delivers a double bottom line of social and business benefits

Social Benefit: Microinsurance protects socio-economic progress
Business Benefit: Allianz can grow with customers from micro to conventional business
Background on Microinsurance

Where we do it

2013

- Markets: 11
- Insured lives: 24.9mn
- Insured assets: 0.4mn
- Premium: 86.1mn

1) Number of markets, insured lives and assets are per 31 December. Premium figures are Jan-Dec figures. Double counting, e.g. if a person has two different Allianz life insurance products, is avoided where possible but cannot be entirely ruled out. The Allianz microinsurance definition may differ from local regulatory definitions.
Where we do it: Asia

Asian 2013
- Markets: 3
- Insured lives: 24.3mn
- Insured assets: 0.4mn
- € Premium: 73.3mn

Click product names for more details.

1) The stated figures refer to third-party liability cover which is a statutory requirement for motorcycles in Malaysia. Contracts may also include additional motorcycle cover which is a voluntary add-on, as is the complementary Personal Accident cover which comes as a separate product.

1) Number of crop index policies sold in 2013. All policies have expired upon harvest time, i.e. prior to 31-Dec-2013.
2) Numbers of insured lives per product may add up to more than the stated total number of lives per country because double counting is factored out, i.e. persons with two or more Allianz life insurance products (although some double counting cannot be entirely ruled out).

How we do it: We constantly assess the quality of our products

- Allianz assesses its microinsurance products on seven product quality criteria as outlined in the Allianz microinsurance assessment tool.

- The global micro portfolio as per Dec-2013 performs as below:

  - Generally, Allianz products perform best on “simplicity” and “low transaction costs”
  - The risk management capabilities of our global portfolio has increased in 2013, (1.1 vs 1.0 in 2012) and transactions costs have further improved as well (2.0 vs. 1.9)
  - However, the overall average has only slightly increased due to the over-proportional growth of non-voluntary product like credit life that led to a decrease in the “voluntary” criterion from 0.4 to 0.3.
  - Going forward, increasing the proportion of voluntary products is a priority.

1) All microinsurance products in 2013 (n=18 products) are included in the analysis, whether they cover lives or assets. The assessments per product are self assessments (as per Allianz product pool) and have been weighted by the number of insured per product. This means that good quality products with few insured have less weight than products with lower ranking but many insured.
How we do it: Distribution

Allianz’ local entities are the drivers & business owners of microinsurance. They work with over 500 experienced partners to reach out to customers.

**Not micro**

2.0 = best, 0.0 = lowest

---

**Can we call it micro?**

**Good micro?**

- This operational definition helps us to decide which products are micro and have to be included in our microinsurance business figures (criteria A – D)
- It also shows how good a product fulfills the Allianz microinsurance values: Passion, Quality, Fairness & Transparency (criteria 1 – 7)
- This definition was first launched on 30-March-2012. It may be further adapted as needed
- Full methodology and product examples [here >>](#)

1) Personal Accident
### Our engagement in Public Sector Insurance Schemes

#### Asia

**RIICE - Remote sensing-based Information and Insurance for Crops in Emerging economies**
- Project to insure 5mn small-holding rice farmers in several Asian countries
- Started 2012 in cooperation with multiple partners → learn more

#### India

**Multiperil Crop Insurance**
- Program of local insurance companies
- Covers 25mn farmers against crop losses
- AllianzRE provides proportional and non-proportional reinsurance cover since 2009

#### China

**Multiperil Crop & Livestock Insurance**
- Several programs of local insurance companies
- Covers over 100mn farmers
- AllianzRE provides proportional and non-proportional reinsurance cover since 2009

---

1) See [operational microinsurance definition](#) of Allianz Group

- Premiums are partially (>50%) or fully subsidized through government funding
- Due to large public subsidies, these schemes do not fall under microinsurance\(^1\)
- Like microinsurance, such schemes mostly or exclusively benefit low-income families
