

Allianz Climate Risk Award 2026

I hereby certify that I have read and understood the selection criteria, application procedure of the **Allianz Climate Risk Award** and Terms & Conditions. I confirm that, to the best of my knowledge, all details provided in the Application Form and in any supporting documentation are true and complete.

I will notify the **Allianz Climate Risk Award** if there are any changes related to my application after the submission of this research project.

By applying for the **Allianz Climate Risk Award** (global and focus awards), I agree to collaborate with the respective Allianz entity (Re/ Trade/ Asia-Pacific) on publishing key results of the research on various Allianz' communication channels, e.g., in the form of an interview with me on Allianz' website, in the form of infographics on Allianz' social media platforms or in the form of a publication with insights into the research's key findings. Allianz Re may also publish the submitted essay as part of a compendium on its website. I agree to be clearly referenced in all communication activities citing my work including the publishing of my contact details.

If selected as a top finalist for the track chosen, I also agree to collaborate with Allianz Re/ Allianz Trade/ Allianz Asia Pacific and commit to attending the award ceremony. Location for the global award is Munich, for the thematic and regional focus awards, consult the application form further details. The winners of the thematic and regional awards commit additionally to attend the event in Munich.

I understand that the jury selects the finalists and winners according to the following criteria as to their best knowledge and understanding:

- Innovation:** The research project is focused on a compelling approach for assessing risks of natural catastrophes and on how new technologies can help mitigate such risks and foster resilient societies.
- Impact:** The research project can make a difference on the current insurance practice and/or advance current practices around societal resilience.
- Applicability:** The research project addresses a relevant problem and is ideally connected to a practical solution.
- Academic excellence:** The research project follows a sound research approach and methodology.

I agree and confirm my participation in the process of the **Allianz Climate Risk Award** and accept the conditions stated in its Terms & Conditions, including the consent to the processing of my personal data.
